

Jordan

An incoming freshman and the first person in her family to attend college. She does not have the support to help guide them; this is her first time being by herself.

Says

Are there life skills workshops on campus?

Where can I get help on filling out applications?

Where can I meet my fellow first-gen students?

Does Xavier provide workshops to help students navigate through college?

Thinks

I wish I had more support.

How does everyone know what to do?

I need someone to help me through this college year.

I am going to make my family proud

Why is this so difficult?

I'm going to give up and move back home.

I am not cut out for college.

This struggle will be worth it in the end

My school wants what's best for me and will help me be successful.

I can do this!

My family is back home rooting and praying for me!

Does
